

Build Your City!

Your job is to
design a urban city.

Build Your City!

Use Chapter 12 to help you.

- **Size:** **Population:**
- **Natural Features** -River, lake, ocean, mountains, foothills, flat?
- **Spatial pattern** (layout of your city)? (p. 316 ideas)
- **Housing** – single family, high density (apartments)
- **Services** – Water? Food? Waste? Energy? School? Mass Trans (bus, train, light rail, subway), Jail, Police
- **Amenities** – shopping, parks, trails, bike paths, etc.
- **Thinking:** Use SMART design to
 - reduce air pollution
 - conserve resources
