

CELL ILLUSTRATION or MODEL

You are to create a detailed and accurate representation of a plant or animal cell. It may be an illustration or a 3-dimensional model.

To receive credit, you must:

- Identify your cell as a plant or animal cell.
- Include all of the organelles studied in class.
- Include an identification key or label all parts.
- Include color.

To qualify to receive an A, you must create a 3-dimensional model of a plant or animal cell. The model must meet all of the above criteria.
