

SUPERFUND PROJECT

Due: _____

- A concerned citizen has requested more information on a local Superfund/Brownfield site in close proximity to her home. You are a planner in the same county. Your boss tasks you with producing a document to be presented at a county board of supervisors meeting. The specific details of what your boss required can be found below. You may complete this project either electronically (PowerPoint, Word Document, etc) or on a poster (max. size 11x17)
- At <http://www.epa.gov/superfund/> a list of Superfund/Brownfield sites can be found . Click on SUPERFUND SITES WHERE YOU LIVE on the left. You will need to search a bit to find the list of sites. Pick any site in any region.

Project Requirements Checklist

1. _____ Heading (5 pts)
 - Name of site, Location of site
 - Map of the location
 - Date Listed as a Superfund site
2. _____ History (10 pts)
 - Details about the law that requires superfund.
 - A brief history of the past uses of the site.
3. _____ Toxins (10 pts) - details on the toxins present (up to two)
 - A picture/graphic of each toxin
 - Negative Human health effects of each toxin.
 - Environmental Impacts of toxin
4. _____ Remediation (10 pts)
 - Start date and projected end date
 - Total monetary expenditure thus far and projected total.
 - Major steps taken to remediate and ensure cleanup/containment
5. _____ Project Professionalism (10 pts)
 - pictures on each slide, design, layout, quality of project
5. _____ Bibliography (5 pts) . 2 sources cited in APA or MLA format

The Fine Print:

- You must do your own writing—NO COPY/PASTE IS ALLOWED. Copying original sources is PLAGARISM. The result will be a 0 on the project.
- This is a public information display. Stay away from lengthy paragraphs with lots of text.
