

Population Videos

How did we get here?

- How are people added to the population?
- How are people removed from the population?
- What year did we hit 1,000,000,000?
- Give 2 reasons less people are being lost.
- How long did it take to go from 1-7 billion?
- At what population size is the world predicted to plateau?

7,000,000,000

- How many years would it take to count to 7,000,000,000 counting every second?
- How many times around the earth is 7,000,000,000 steps?
- What year we hit 1 billion?
- What year did we hit 6 billion?
- How many births and deaths per second?
- A megacity is 10 million or more people. How many are there today?
- Everyone on the earth clumped together would take up how much space (in mi²)?
- _____% lack access to clean drinking water.
- _____% lack adequate sanitation.

Who is Typical?

- Is he/she Right or Left handed?
- Is he/she Male or Female?
- How old is he/she?
- What country does he/she live in?
- How much money does he/she make per year?
- Average worldwide Height? Male and Female.
- Average lifespan? Male and Female.
