

Tragedy of the Commons- Cows

1. Find the link on your class website titled TOC Video, watch the video.
 - a. During the video you will see 5 activities listed with questions. Pause the video for each activity and answer the questions on a google doc.
2. Next, on your class website, find the link TOC online. Click the link and follow it to the lab simulator mentioned in your video. Use what you've learned to study the Tragedy of the Commons through the simulations. You can leave the "function" parameter on F1, but you need to experiment with and change the options to "Share", "Tax", or "Privatize" the land as well as the amounts of tax and rent that will be applied. **Your goal is to find the right combination needed to maximize milk production/ profits for all of the farmers through the end of the simulation.** Those numbers need to be reported at the end of your report.
